Welcome to the Nursery Newsletter

7th May 2026

What's been happening in Mouse Class?

Recently we have been enjoying the story of 'Supertato' by Sue Hendra. This inspired the children in many different ways, such as letting the whole school know that there was an Evil Pea on the loose with their Wanted posters, freeing some of the peas from their jelly slime trap, working our fine motor control by making evil peas using playdough or building up our own superhero strength by challenging ourselves with obstacle courses.

But the most exciting thing about last week was that Evil Pea had captured some of Supertato's veggie friends and put them in a cage. The children needed to solve maths problems that Evil Pea had set to receive keys to set the veggies free. While the children were waiting for each challenge they made sure that the veggies were comfortable and wrote them messages to try and keep them happy.

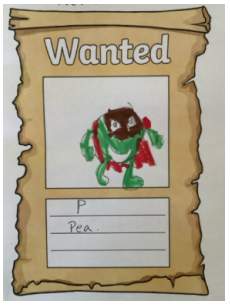

At last, on Thursday the children solved the final problem and received a clue letting them know where Evil Pea had hidden the last key. The children were delighted and cheers could be heard throughout the school!

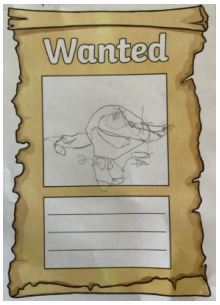

In RE we are continuing to learn a little more about how we can hear about God and His messages. Our previous learning taught us about how the Holy Spirit brought gifts to the disciples to allow them to spread the word of God in many different languages, and through learning about the Church it is helping us to understand that Father David also helps us to hear about God.
With this in mind, on the Wednesday before half term (20th May) we have arranged with Father David to visit St Walstan's where the children will be able to experience the inside of a Church in person and discuss what they notice.
In order to prepare the children for this visit, this week we have been learning about the Church as a building, and next week we will be exploring the Church as a community of people coming together to worship.

Returning borrowed clothes

With the Spring weather becoming a bit warmer, the children have been enjoying playing in the water tray, painting outside and exploring messy play. If you have borrowed some of the Nursery spare clothes, where we have changed the children after their play, please could we ask that you return them. We are beginning to run out and we're hoping for some more warm weather, where the children will definitely need the clothes again. Many thanks.

Non- Uniform Day

This Friday (8th May) the school will be celebrating Sir David Attenborough's 100th birthday, meaning that the children are welcome to come to Nursery wearing their home clothes, with the theme 'Planet Earth'. There is no contribution needed for this non-uniform day, it is simply for fun and to celebrate a person that has shown generations the wonderful world we live in.

Dates for your diary

8th May - Non-Uniform day.
20th May - Nursery visit to St. Walstan's
22nd May - Whole School Mass to celebrate Pentecost
22nd May - School breaks up for half term. Nursery will reopen 1st June.

Best wishes,
Mrs Staines
